

Operators Guide for Refined Fuels, with two-stage flow control valve (“PRESET” BATCH mode).

How to make a delivery

1. Insert ticket in the printer.
2. From the “NEPTUNE” root menu, press either of the white buttons \rangle or \wedge on the four button front control panel, until “ROUTE” is flashing. Then press the green START/ENTER button.

3. Press \rangle or \wedge until “DELIVERY” is flashing, then press the START/ENTER button.

4. Press \rangle or \wedge until the product that you intend to deliver is displaying in the “SELECT PRODUCT” menu, then press the START/ENTER button to confirm the correct product. For a priced product the display will now show the gross price, confirm this is the correct price by pressing the START/ENTER button, or press STOP/CANCEL to return to the “SELECT PRODUCT” menu.

Note: For a non-priced product, you will go directly to point 6

5. Press \rangle or \wedge to select the preset unit, then press the START/ENTER button.

6. Enter the BATCH volume or price you want to deliver. Press the \rangle button to move the cursor and the \wedge button to increment the character. When the correct value is displayed, press the START/ENTER button.

7. The display will reset and after 10 seconds the register will open the 2 stage valve. The display will momentarily display “BATCH FILL” then :

Note: To stop the delivery before reaching the batch, press the red STOP/CANCEL button to close the two-valve control.

8. Upon reaching the BATCH quantity the E4000 will momentarily display "BATCH DONE" then will automatically shut off the 2 stage flow control valve.

To print a delivery ticket ("PRESET" BATCH mode)

1. Insert the ticket in the printer.
2. When the preset delivery is completed, press either the green START/ENTER or red STOP/CANCEL button to print the delivery ticket.
